DETAILED ACTION

1. This action is in reply to applicant's correspondence of 19 June 2003.
2. Claims 1-9 remain rejected under 35 U.S.C. 103(a).

Claim Rejections - 35 USC § 103

The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

3. Claims 1- 9 remain rejected under 35 U.S.C. 103(a) as being unpatentable over McDonnal et al, U.S. Patent 5,699,428, and further in view of examiners assertion.

As per amended claims 1-3, the claims are amended to incorporate claim language corrections and clarifications so as to expand upon the sequence for the protocol to update the cryptosystem key.

As per claims 4-9, these claims remain rejected as per the original office action in view of the above claims 1-3 rejection.

Response to Amendment

4. As per applicant's argument concerning the McDonnal's method of decryption versus the claim of cryptosystem *key updating* to effect proper decryption, the examiner has fully considered the arguments and finds them not to be persuasive. The claim language recites in the

Art Unit: 2131

preamble “a system for preventing *illegal use* of software, comprising: ”, which is clearly not “cryptosystem *key updating*” per se .

Further, the applicant’s argument concerning the revised claim language delineating the difference between the McDonnal sequence of decryption key processing and the applicants revised claim language is likewise not persuasive. Therefore, the examiner asserts that the original office action rejection concerning the McDonnal’s method of decryption (claim 1 rejection) is still valid.

5. **THIS ACTION IS MADE FINAL.** Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the mailing date of this final action.
